Go to the DMV online, not in line.

Renew your credentials online.

As part of the Department of Motor Vehicles' response to the COVID-19 pandemic, the DMV is going digital. You have been selected to test drive the new online service for driver's license/non-driver ID renewals. Our records indicate that, as of 1/19/2021, you have not yet renewed your driver's license/non-driver ID. But now, renewing online is as easy as 1-2-3!

Step 1: Gather what you'll need

- This access code: **12345**
- Your first name: John
- Your last name: Doe
- Your street address number: 1
- Your date of birth
- Your driver's license: 123456789
- Your social security number
- A valid credit or debit card

Step 2: Renew online by going to <https://dmv.service.ct.gov>

Step 3: Get your card in the mail

Your license will arrive in the mail within 20 days. For more information, visit <https://dmvcardtrack.ct.gov/CredentialTrackingWeb/>

PLEASE NOTE: Eligibility to renew your driver's license online requires customers to hold a Connecticut non-commercial driver's license or non-driver ID that is valid or that expired less than two years ago. You may renew online up to six months before your expiration date. Other restrictions may apply.

The ability to change your address or name, obtain a new photo, or get a verified Real ID is not possible online and will require an in-person visit to any DMV office, AAA office, or licensing partner. For a complete list of locations, please visit www.ct.gov/dmv/offices.
